Anti-Acne and Couperose Cream 50ML

Crema Anti Acne e Couperose 50ML

This facial cream is an effective remedy for both men and women suffering from acne, as it dries pimples, soothes redness and itching, and enhances the skin's healing process, preventing the formation of post-acne scars.

ManufacturerIschia Le Terme della Bellezza

Description

Aloe, with its healing and anti-inflammatory properties, helps reduce redness.

Melaleuca Alternifolia, or Tea Tree, is effective in treating acne due to its healing, astringent, dermo-purifying, and sebum-normalizing properties. But this cream has a dual effect: thanks to the active ingredient Couperine, a blend of arugula and prickly pear flowers, it helps very sensitive skin and prevents the onset of couperose while also soothing the condition when it is already present. It increases antioxidant defenses, reduces redness, tension, and the burning sensation on the skin.
